M/Y Philippine Siren

July 3-13, 2012

10 nights Luxury Live Aboard

\$3649 per person

Built on the Indonesian Island of Sulawesi, The Philippine Siren is a traditional “gaff rigged Phinisi” handcrafted from ironwood and teak. You will find no other dive live aboard as beautiful in Philippine waters, and being that she was built by divers for divers and not adapted from being a research vessel, the choice is clear. She welcomes 16 guests on each trip to ensure abundant space for all divers. En-suite cabins are air conditioned with either a double or two twin beds. All meals and a wide selection of soft drinks, teas and coffee, beer and fully stocked cocktail and wine bar are included in your costs. Free Nitrox and Free dive equipment rental makes your packing a little lighter. Massage and laundry service is available at an additional charge. This Itinerary covers the Southern Visayas from Mactan, also known as Cebu. This region is home to some of the best diving in the Philippines, with its wide diversity of marine life, steep coral covered walls, gentle sloping reefs and muck diving hotspots. During the 10 day charter we dive the islands of Cebu, Cabilao, Panglao, Balicasag and Pescador, along with the dives at Apo Island marine sanctuary and Dauin. The trip offers not only fantastic macro and the chance to see schooling fish, but the possibility of some larger pelagic too as the shy thresher sharks come in to feed on the schools of sardines.

Call MaLinda with questions and to reserve your space.
